6 Phenomenal Websites for the Best Design Resources

No graphic design is complete without the appropriate templates and photographs. After all, any web page without imagery is dull and dead to the eyes and the imagination.

Every **designer** is familiar with the struggle of spending hour after frustrating hour online in search of just the right photo or template which captures the essence of their project without breaking the bank.

As a **designer**, you may already have a go-to **website** for your **design** needs, but what if you had a carefully curated, shortlisted collection of **websites** which guarantee the most remarkable **design** resources every time?

The following list includes the biggest names in stock photography, where **designers** are sure to find exactly what they're looking for, and much more:

1. Shutterstock

The Shutterstock logo is displayed in a large, bold, sans-serif font. The word "shutterstock" is written in a dark red color, with the "s" being significantly larger than the other letters. The "t" is also large and features a small square cutout in its top-right corner. The "c" is a dark grey color, and the "k" is a dark blue-grey color.

Shutterstock is a highly popular **stock image** agency which contains over 80 million **royalty free images** with over 50,000 new images added daily. Described as straight-forward, elegant and user-friendly, Shutterstock caters to every individual, from students to **designers** to corporations requiring enormous inventories of stock photos.

The buying model of Shutterstock is subscription only, although the on-demand subscription option does not require a hefty investment. However, Shutterstock is still more expensive than most **stock image websites**.

In addition to photographs, Shutterstock also provides videos, vectors, illustrations, icons and stock music.

2. Adobe

Adobe Stock

Adobe Stock is a recently launched **website** which offers premium **stock photography** services. It works closely with Adobe's other products including Photoshop CC, Illustrator CC, etc.

What makes Adobe Stock uniquely beneficial for **designers** is their expedience in providing customers the ability to edit and revise **design** work on watermarked images for free; all edits are automatically applied to the un-watermarked high-resolution image once you license it.

In this way, Adobe Stock streamlines any **designer's** creative process. On this website, you can find high quality images, vectors and illustrations.

Many **designers** themselves contribute to Behance, not only with their work but also their knowledge and external **graphic design** resources, making it a valuable source for **designers** for multiple reasons.

5. Pngtree

[Pngtree](#) is by far the most valuable resource mentioned on this list, because this single **website** houses all the templates, presentation prototypes, backgrounds and graphic elements any **designer** could need for any project.

With tens of millions of png images in their inventory, pngtree offers more than 4 million **royalty free images** completely free of cost as well. The **website** contains all varieties of graphic elements in PNG file type including vectors, templates, icons, backgrounds and illustrations reviewed and approved by experts, with thousands of fresh images added daily to their archives.

What sets pngtree apart is its unique collection of premium **royalty free** PNGs which are far from the generic stock most free **photo stock websites** offer. The extensive variety of graphic resources found on this site as a veritable treasure for nubile as well as experienced graphic designers.

Pngtree is a well-structured website which provides extensively advanced and specific search options and categories, saving **designers** from hours of hassled searching. Most graphic designers download the bulk of the necessary PNG graphic elements through pngtree as it offers the most comprehensive collection of graphic resources exclusively in PNG format for designer convenience.

Since imagery is the most integral part of **design**, **designers** should expand their reach to a variety of resources from where they can obtain extraordinary and noteworthy images and services for all their projects. There are a number of online resources which provide **designers** access to high-quality **stock imagery** without any hassle or substantial costs.

Now that you know multiple options for royalty-free images, which one would you opt for the [best design resource](#)?
